Medication Storage and Labeling

- Medications and biologicals in medication rooms, carts, boxes, and refrigerators were maintained within:
  - Secured (locked) locations, accessible only to designated staff;
  - Clean and sanitary conditions; and
  - Proper temperatures in accordance with manufacturer specifications.
- Schedule II controlled medications (excluding single-unit packaging in minimal quantities that can readily be detected if missing) were maintained within a separately locked permanently affixed compartment.
- Sufficiently detailed records of receipt and disposition of controlled medications were maintained to enable an accurate reconciliation.
- All medication records were in order and an account of all controlled medications was maintained and periodically reconciled.
- Were medications and biologicals labeled in accordance with currently accepted professional principles, and include:
  - Appropriate accessory and cautionary instructions, and
  - Expiration date, when applicable.

Unit or area where the medication storage task was conducted: _____

1. Are all medications and biologicals stored and labeled properly (medication rooms, carts, boxes, refrigerators)?
